<i>Volunteer</i> <ul style="list-style-type: none">◦ Coordinated with team members to organize cleanliness drives and community visits.◦ Managed logistics for donation campaigns and awareness sessions◦ Interacted with local communities, improving communication and teamwork skills. | <i>Jan 2025-Present</i> |

Projects

-
- **Credit Card Fraud Dashboard**
Built a full-stack Credit Card Fraud Detection Dashboard using Next.js and Python, processing 280k+ transactions with 30 features per input.
Integrated Random Forest and Logistic Regression models to deliver real-time fraud probability, risk level, classification with a dataset fraud rate of 0.17% (492 cases).
Developed an interactive dashboard with 4+ UI components, supporting single transaction analysis and CSV batch processing, with real-time API integration.
 - **Driver Fatigue Monitoring System**
Developed a real-time driver drowsiness detection system using Python, OpenCV and MediaPipe facial landmark tracking.
Implemented blink detection, face pose analysis and yawn detection (3 core features) and alert mechanisms to identify fatigue while driving.

Achievements and Certifications

-
- Participated in SIH and secured 5th position out of 522 teams in college round.
 - Business for Good: Fundamentals of Corporate Responsibility- London Business School *December 2025*
 - Corporate Governance- Coursera *January 2026*
